INTERVIEW SUMMARY

Sir:

The Applicant wishes to express their appreciation for the courtesy extended by the Office, and in particular by Examiner Alvarez, during the In-Person Interview of April 9, 2008. During the Interview Applicant's undersigned representative, Scott Richardson, provided an overview and brief discussion of the invention in the present application. Examiner Alvarez and Applicant's representative also discussed the pending §103 rejection and the art cited in the rejection, U.S. Patent 5,946,664 (Ebisawa) and U.S. Patent 6,456,340 (Margulis). The parties also discussed some claim features thought to possibly be allowable by Applicant's representative.

Finally, the parties discussed whether the present application is appropriately classified as a business method patent application. Applicant's representative agreed to

file a Continuation application under §153(b) with claims removing the features thought to possibly pertain to business methods. Examiner Alvarez agree to review the classification of the application upon receiving the Continuation application, and if appropriate, transfer the application to another art unit.
